Sharqia / Kafr Saqr

---

Frontend Developer building scalable, high-performance web applications with a strong accessibility focus. Skilled in modern design patterns, state management, and component-driven architecture. Collaborative team player – work effectively with cross-functional teams to improve UX and accelerate delivery.

## Projects

### My Portfolio • ↗

Next.js, TypeScript, Tailwind CSS, Framer-motion, Sanity, Shadcn

- Built a multilingual portfolio (EN, DE, FR, AR) using App Router, ISR, and multi-theme support (dark/light).
- Improved Lighthouse performance score to 95+ and reduced initial load time.
- Implemented dark/light themes and CMS-driven content using Sanity.

### Meta Blog • ↗

React, prisma, pusher, Tailwind CSS, shadcn, oauth, cloudinary, next-auth, react-hook-form, typescript

- Built a feature-rich blogging platform with secure authentication (OAuth + OTP), profile management, and rich content creation using TipTap.
- Enabled social interactions including following users, saving favorites, and real-time notifications for comments and follows.
- Designed a responsive, Dark Mode-friendly UI with infinite scroll and optimized performance (100% Lighthouse score).
- Key highlights: Real-Time Notifications, Authentication, Caching, Dark Mode, Social Features.

### Dial Masters Solutions • ↗

real estate industry – React, TypeScript, Radix-Ui, Vercel

- Built a responsive, accessible, and SEO-friendly website
- Improved performance and UX through image optimization and code splitting

### FlixHub • ↗

Movie Review Platform – React, Redux, Tailwind CSS

- Built a fully responsive movie review platform consuming TheMovieDB API, supporting multiple languages, advanced search, category filtering, and production company recommendations.
- Designed and implemented reusable, interactive UI components for improved user engagement.
- Managed application state with Redux to ensure scalability and maintainability.
- Optimized performance with lazy loading and efficient API data fetching.

### image stock • ↗

React, Pexels API, Tailwind CSS, Swiper.js

- Developed a responsive Pexels clone featuring infinite scroll with smooth, visually pleasing image transitions.
- Implemented advanced search, content recommendations, and image downloads in various sizes.

- Enabled filtering by color and size to explore and organize 3,000+ images and videos from the Pexels API.

## Skills

**Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, shadcn/ui

**Libraries & State Management:** React Context API, React Query, React Hook Form, Framer Motion, next-intl, NextAuth.js

**Version Control & deployment:** Git, GitHub, vercel

## Education

**Bachelor's Degree in Information Technology and Computer Science at Sinai University , North Sinai El Arish**

July 2018 - July 2024

**Grade:** GOOD

foundational knowledge in computer networks and cryptographic algorithms. Participating in student-focused technical discussions on web technologies and guidance for entering the web development field. Completed ITI training programs covering React, HTML, CSS, and JavaScript.

## Certificates

**Graduation certificate from Sinai University**

July 2024 • [↗](#)

**Introduction to Web Technologies from ITI**

September 2023 • [↗](#)

**Front-End Development from ITI**

August 2021 • [↗](#)

## Languages

**English** - Conversational

**Arabic** - Native
